DETAILED ACTION

This is a first office action on the merits of patent application S. N. 10/690,614.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1-8 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 1 recites the limitation "these components" in line 17. The object of the phrase is unascertainable (e.g., front wheels, engine, drive shaft, etc.). Also, the claim recites the limitation "the final decelerator" in line 18. There is insufficient antecedent basis for this limitation in the claim.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claim 1, as understood, is rejected under 35 U.S.C. 102(b) as being anticipated by Sumiyoshi et al. ('306).

Sumiyoshi et al. discloses a two-wheel drive/four-wheel drive mode shifting device comprising a shifting unit (Fig. 2), a drive shaft (3), a driven shaft (4), a clearance, a plurality of engaging members (5), a shifting mechanism (505), a casing (204), a final decelerator (Fig. 1), a communication section, and a seal (206).

Allowable Subject Matter

Claims 2-8 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, second paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. US 5148903 A, US 5195604 A, US 6318532 B1, and US 6626787 B2 disclose other two-wheel drive/four-wheel drive mode shifting devices.
